Care  Visions

# Practice Framework

# Managing Change

- Recognition of need for organisational change and individual change
- Phase One – preparing for change
- Phase Two – making the change
- Phase Three – embedding the change

# Reflection

Take 5 mins to consider:

- How does this presentation relate to changes I have been involved with over the last period of time?
- Are there any reflection points I would want to take back to my own workplace?
- What questions do I want to ask?
- What reflections do I wish to share?
